## INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY

International application No.  
PCT/US04/26030**Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement****1. Statement**

Novelty (N)	Claims <u>1-23</u>	YES
	Claims <u>NONE</u>	NO
Inventive Step (IS)	Claims <u>1-23</u>	YES
	Claims <u>NONE</u>	NO
Industrial Applicability (IA)	Claims <u>1-23</u>	YES
	Claims <u>NONE</u>	NO

**2. Citations and Explanations (Rule 70.7)**

Claims 1-23 meet the criteria set out in PCT Article 33(2)-(3), because the prior art does not teach or fairly suggest a realtime electronic communications system, comprising an instant messaging server; a first computer comprising a first instant-messaging client, said first client adapted for logging said first computer in to said server, and communicating to said server connecting information of said first computer; a second computer comprising a second instant-messaging client, said second client adapted for logging said second computer in to said server and communicating to said server connecting information of said second computer; an external device operatively connected to said second computer; and means for utilizing respective connecting information of said first and second computers for effecting realtime peer-to-peer communication between said first and second computers, whereby said first computer interfaces with said external device in realtime.

No negative opinion has been given because the search report relies on "P" references.

Claims 1-23 meet the criteria set out in PCT Article 33(4), and thus have industrial applicability because the subject matter claimed can be made or used in the industry.
